## Medieval German folk song <sup>1</sup>

I stood in the Maytime meadows by roses circled round where many a fragile blossom was bright upon the ground; and as though the roses called them and their wild hearts understood, the little birds were singing in the shadows of the wood. The nightingale among them sang sweet and loud and long, until a greater voice than hers rang out above her song. For suddenly between the crags, along a narrow vale the echoes of a hunting horn carne clear along the gale. The hunter **stood beside** me who blew that mighty horn, I saw that he was hunting the noble unicorn ....

The unicorn is noble; he keeps him safe and high upon a narrow path and steep climbing to the sky; and there no man can take him; he scorns the hunter's dart and only a virgin's magic power shall tame his haughty heart. What would be now the state of us but for this unicorn and what would be the fate of us, poor sinners, lost, forlorn? Oh may he lead us on and up, unworthy though we be, into his Father's kingdom to dwell eternally.

## Unicorn in modern world

Of all the fabulous creatures, from the amphisbaena to the zytiron, that existed in the minds of medieval people, the one that still lives on in this modern world is the unicorn. He is glorified in many a presentday poem and he is the hero of several contemporary fairy tales for adults as well as children. In one of James Thurber's "Fables for Our Time" a character who does not believe in unicorns is treated with ridicule and contempt and fetches up in the "booby hatch." The unicorn **appears today** on jewels, textiles, in statuettes, as decorations for pottery, and in cartoons. To be sure, reports of his actual appearances in the twentieth century are rare, hut this is not surprising, for the unicorn was always a rare creature, one of the marvels of the world.

In Stirling Castle is a stunning piece of woven picture of a unicorn on a display of a forest site with other people and animals. What puzzles me is that the unicorn has not hooves, as a horse, but cloves, like pigs. I remember asking about this but our very knowledgeable guide had not notice this before. Anyone know why the cloves?

**L** **M** **K** 1 y

Because original folklore unicorns had cloves, sometimes also had goat's beard. I think unicorns with hooves are quite modern way of picturing them, before they looked less horse like

Image credit: <http://rhizome.org/profile/johnmichaelboling/>

The background of the image is an abstract composition of wavy, flowing lines in shades of pink, blue, and green. The lines create a sense of movement and depth, with some areas appearing more saturated than others. The overall effect is a vibrant, modern aesthetic.

## Tapestries at Cloister

If the set of tapestries at The Cloisters had represented an ordinary medieval hunt of a bear, a stag, or a boar, they would be admired for their technical brilliance, monumental compositions, brilliant coloring, and delightful detail, but they would probably never so completely entrance the modern viewer as does the **Hunt of the Unicorn**. Conversely, it may be said that the tapestries at The Cloisters, as well as the renowned set of the **Lady with the Unicorn** in the Cluny Museum in Paris, have helped considerably to keep the unicorn image alive to the present day. Both these sets of tapestries were designed and woven about 1500, in the late Middle Ages.

The story of the beautiful one-horned milk-white animal of the tapestries is long, complicated, sometimes contradictory, and often obscure. The earliest description of such an animal may be dated about 400 B.c. The tapestries, made about nineteen hundred years later, show the unicorn, after centuries of accumulated lore, at the height of his prestige and glory. And then, less than a century after the tapestries were woven, a character in Shakespeare's *Tempest* remarked, following a mysterious happening (act 3, scene 3),

“Now I will believe that there are unicorns.”

**E C** 14 w

Well, in the meantime read *The Lady and the Unicorn* by Tracy Chevalier, a novel about the making of these wonderful tapestries. Then go to Cluny, if you can.

When the tapestries were woven, everyone believed in unicorns. If some did not believe, they certainly left no evidence of their doubt. So far as is known, the seven tapestries at The Cloisters represent the most completely realized hunt of the unicorn that the **Middle Ages** produced.

In the first, gaily dressed huntsmen with feathers in their hats spears in their hands, and their dogs on leash, pause for a moment at the edge of a forest while a scout beckons to them, indicating that the quarry has been sighted.

**B** **E** 14 w

At Sterling castle in Scotland, there is an effort to make exact reproductions of the tapestry's. They are using the exact same dyes, methods, etc. as the original. The ladies involved in this have been at it for 20 years and are nowhere near finished. It's estimated they will die before the tapestries are done.

Love the Cloisters! After viewing the tapestries I like to  
go out on the balcony facing the Hudson and if I'm the  
only one there and it's quiet enough I can imagine that  
I'm lord of all I survey.

In the second, the huntsmen come upon the unicorn in a clearing where a fountain plays and beasts are assembled by a quiet stream; they wait while the unicorn dips his horn into the water to purify it of poison so that the lions, the stag, the panther, and the other animals may safely drink.

In the third, the hunt is in full cry. Dogs are unleashed and spears are thrust, hut the unicorn nimbly leaps the stream and eludes the hunters.

In the fourth, the unicorn **fight**s back; he gores a dog with his horn and kicks out at a huntsman with his hooves.

**Atlas Obscura** 3 April 2017

In disturbing detail, the series tells the story of hunters stalking through the woods with their canines, hunting the mythical beast. <https://www.atlasobscura...>

**M R** 44 w

This is why we have no unicorns today.

**K J** 44 w

I'm not sure why the cruelty depicted is so "shocking". Cruel "sport" and "spectacle" has been around since, at least, the Roman Era. And in the Middle Ages and Renaissance 'Bull Baiting' and 'Bear Bating' ( where dogs are set upon a bull or bear while spectators cheered) were Nobel Sport. Dog fighting and Cock fighting, while horrific and illegal, still happen. Some human beings find the suffering of others to be "fun" and "exhilarating" . 😊

**P B** 44 w

I just saw this a few weeks ago, and it was just kind of depressing. It's the story of innocence betrayed, a weird theme for tapestries that took many, many hours to create and that would be gazed upon for generations thereafter. The Lady and the Unicorn series in Paris is much more fun!

**L M** 44 w

But unicorns don't represent innocence! As I mentioned in my somewhat facetious comment above, they were viewed in Mediaeval and Renaissance times as brutal, savage beasts that killed everything around them for the sheer pleasure of destruction.

The association with virgins is not one of similarity but opposition. It was believed that unicorns were so savage that only the purest of female virgins would not provoke their bloodlust, hence the only way to kill one safely was to lure one into relaxing in the lap of a virgin and then killing it while it was distracted.

The way in which the unicorn has utterly and completely changed in our imaginations makes for a fascinating study in the evolution of symbolism.

**T S** 44 w

Any Bible reader and believer knows unicorns aren't myth.

Of the fifth tapestry only two fragments remain, hut there is enough to show that the huntsmen, having given up attempts to capture the unicorn by force, resort to a ruse, the taming of the unicorn by a maiden. Enclosed by a rose-covered fence, the unicorn, with only a **suggestion** of wildness in his eye, is fondled by the maiden, whose delicate hand rests on his mane. The maiden's pert companion signals to the horn-blowing hunter that the unicorn may now be captured.

**K S M** 44 w

Oh come now. People are going to rip you apart. Unicorns in the Bible were some sort of one horned beast, such as a rhinoceros. 'Dragons' were hyaenas I believe. Don't give non believers more reason to mock. This is like saying 'the Cardiff Giant' proves giants in the Bible even though it's made of stone.

**T S** 44 w

If someone is going to mock the Bible, my comment is not needed. Why should I hide the truth because some refuse to see. Those who have ears, let them hear. Those who have eyes, let them see. And there have been giant skeletons found. Look it up.

**K S M** 44 w

Trollolololololol, two can play the war of the verses.

Prov 15:21

Folly is joy to him who lacks sense, But a man of understanding walks straight.

Philippians 1:9-10

And this I pray, that your love may abound still more and more in real knowledge and all discernment, so that you may approve the things that are excellent, in order to be sincere and blameless until the day of Christ;

**D C** 44 w

Just a reason to dress up with your mates, get out of the castle and drink.

In the sixth tapestry he is killed by the hunters and brought, beautiful even in death, on the back of a palfrey to the lord and lady of the **castle**.

In the last tapestry he is shown alive again, indestructible and quite happy in an enclosure, tied to a tree hearing pomegranates.

Though it is possible to understand in part the meaning of these tapestries by a study of the written sources, a complete understanding of all the symbolism in them may always remain elusive.

## **A one-horned animal**

The first person to write of a one-horned animal was Ctesias, a Greek physician to the Persian court of Artaxerxes and Darius II, around 400 B.c. In his book Indica he says:

There are in India certain wild asses which are as large as horses and even larger. Their bodies are white, their **heads** clark red, and their eyes clark blue. They have a horn in the middle of the forehead that is one cubit [about a foot and a half] in length; the base of this horn is pure white ... the upper part is sharp and of a vivid crimson, and the middle portion is black.

Those who drink from these horns, made into drinking vessels, are not subject, they say, either to convulsions or to the falling sickness. Indeed they are immune even to poisons if, either before or after swallowing such, they drink wine, water, or anything else from these beakers.

Other asses, tame or wild ... do not have an ankle-bone ... but these do have an ankle-bone ... the most beautiful that I have ever seen .... This animal is exceedingly swift and powerful, so that no creature, neither the horse nor any other, can overtake it ....

It's finally here 🦄🦄🦄🦄🦄🦄🦄🦄

Update! Do it now! Then I can spam you with unicorns!

There is no other way to capture them in the hunt than this: when they conduct their young to pasture, if they are surrounded by many horsemen, they refuse to flee, thus forsaking their offspring. They fight with thrusts of horn; they kick, bite, and strike with wounding force both horses and hunters; but they perish under the blows of arrows and javelins, for they cannot be taken alive. The flesh of this animal is so bitter that it is not **edible**; it is hunted for its horn and its ankle-bone. <sup>2</sup>

Different though this animal of Ctesias may be from the unicorn of the tapestries, in many essential characteristics he is the same. In the first place, he has only one horn and he uses it as a weapon, he kicks his opponents with his hooves, he is fleet and fighting-fierce, and he can be captured only by what may be termed unfair methods.

As for his appearance, the unicorn in the tapestries is perhaps not so large as the horse to which Ctesias compares the wild ass, hut he is not an insignificant animal; his body is white as in Ctesias, hut, happily, his **head** is white too, instead of dark red, and his horn also is white and not parti-colored as in Ctesias; his eyes are gray, not dark blue.

Finally, both the horn of the wild ass of Ctesias and the horn of the unicorn in the tapestries have the magic quality of repelling poison.

## The story of the unicorn

The account of Ctesias has survived to the present only by means of a copy of his work made by Photius, Patriarch of Constantinople, who lived in the ninth century A.D. Ctesias' book, however, was known to Aristotle, about a hundred years after it was written. Aristotle discounted many of its more preposterous observations, even though Ctesias claimed that he had set down nothing that he had not either seen himself or heard from the mouths of credible witnesses. It is fortunate for the story of the unicorn that the Greek philosopher Aristotle, who, in the Middle Ages, was considered an authority never to be questioned, did not deny once and for all the existence of the one-horned creature of Ctesias. Aristotle's reference is brief but unequivocal:

“There are ... **some animals that have one horn** only, for example, the oryx, whose hoof is doven, and the Indian ass, whose hoof is solid. These creatures have their horn in the middle of their head.” <sup>3</sup>

**R W** 3 y

I find it interesting that some people mock the Bible because it mentions unicorns, but here we have a photo of a modern-day unicorn. Unicorn simply means "one horn." Love the photo!

Another great man of ancient times, Julius Caesar, records the existence of a one-horned animal, reporting this of the Hercynian forest in Germany:

“There is no man ... we know who can say that he has reached the edge of that forest, though he may have gone forward a sixty days’ journey .... It is known that many kinds of wild beasts not seen in other places breed therein, of which the following are those that **differ most from the rest** of the animal world and appear worthy of record. There is an ox [“bos “] shaped like a stag, from the middle of whose forehead, between the ears, stands forth a single horn, taller and straighter than the horns we know.” <sup>4</sup>

The Roman writer Pliny the Elder (about A.D. 23-79), whose prolific works in the field of natural history were, like Aristotle’s, accepted as infallible in the Middle Ages, mentions several one-horned animals and gives the name monoceros (Greek for unicorn) to one of them.

**D** **V** 3 y

That's not a unicorn I've seen a unicorn they r fluffy

Thus the unicorn received a name of his own and was no longer a one-horned wild ass. Pliny says that the Orsaean Indians hunt many wild beasts, the fiercest of which is

“the monocerous, with a body like a horse, head like a stag, feet like an elephant, and tail like a boar; it makes a deep bellow, and one black horn two cubits long projects from the middle of its forehead. This animal cannot be taken alive.” <sup>5</sup>

The unicorn in the tapestries is rather like a horse, as in Pliny, hut it cannot be said that his feet are like an elephant's or that his flowing tail is like that of a boar. Neither is his horn black, although it is very nearly two cubits (about three feet) in length-twice as long as in Ctesias' report.

Another Roman writer on the natures of animals, Aelian (about 170-235), called “**honey-tongued**,” speaks in detail about the one-horned beasts of

India, adding several items of importance to the **legend**

In certain regions of India ... they say that there are impassable mountains full of wild life .... And in these same regions there is said to exist a one-horned beast .... It is the size of a full grown horse, with reddish hair, and is very swift of foot .... Between its eyebrows it has a horn growing out; it is not smooth but has spirals of quite natural growth, and it is black in color. This horn is also said to be exceedingly sharp .... When other animals approach, it does not object but is gentle; with its own kind however it is inclined to fight .... It likes lonely grazing grounds where it roams in solitude, but at the mating season when it associates with the female, it becomes gentle and the two even graze side by side ....

They say that the foals when quite young are taken to the King of the Prasü and exhibit their strength one against the other in public shows, but nobody remembers a full-grown animal having been captured. <sup>6</sup>

an animal with a white body, clark red head, and crimson-black-white horn.

He adds:

From these variegated horns, I am told, the Indians drink, but not all, only the most eminent Indians, and round them at intervals they lay rings of gold, as though they were decorating the beautiful arm of a statue with bracelets. And they say that a man who has drunk from this horn ... is free from incurable diseases; he will never be seized with convulsions ... nor be destroyed by poisons .... And these animals are far swifter than any ass or even than any horse or deer .... To pursue them is, in the language of poetry, to chase the unattainable .... A full-grown ass one would never **capture alive** and when dead the Indians strip them of their horns, which as I have said, they decorate. <sup>7</sup>

The horn of the unicorn in the tapestries has spirals like that of the unicorn of Aelian. Moreover, the dead unicorn, in the sixth tapestry, its precious horn garlanded with leaves, is brought to the lord and lady of the castle, the “eminent “ people who, according to Aelian, had the sole privilege of benefiting from the horn’s miraculous properties. As in Aelian, the unicorn clipping its horn in the stream is gentle and kind with other animals and becomes quite tame, in certain circumstances, under female influence.

None of the writers quoted so far claimed to have seen a unicorn. However, Apollonius of Tyana, a **traveler** and philosopher of the first century after Christ, is reported by his biographer to have seen the singlehorned wild asses of India.

Although few in this paganera claimed to have seen the unicorn itself, possibly several had truly seen the drinking cups allegedly made from its horn. These were probably made of the horn of the **rhinoceros**.

## Unicorn in Bible

A group of Hebrew scholars living in Alexandria were also familiar with the unicorn and were responsible, in effect, for putting him into the Bible. These scholars-tradition says they numbered seventy-two translated the Old Testament from Hebrew into Greek in about the third to second centuries B.c. In this translation, the Septuagint, **the beast** called in Hebrew re'êm became monoceros, that is, unicorn.

wow... just wow... i could look at those 'corns all day,  
so magical they are the most ferocious of beast you

Modern scholars have pointed out that the re-  
*em* should be identified as the wild ox, but it  
has remained the unicorn for many centuries.  
Like the original books of the Old Testament, the  
Septuagint was considered to be divinely inspired,  
hence it appeared obvious that the unicorn was  
authenticated by God himself.

In the Vulgate, the Latin translation of the Bible  
made by Saint Jerome in the fourth century, *re-  
em*  
in several instances became rhinoceros, remaining  
*unicornus* in others. The King James translation of  
the Bible mentions the unicorn thus:

God brought them out of Egypt; he hath as  
it were the strength of an unicorn (Numbers  
23:22).

His glory is like the firstling of his bullock, and  
his horns are like the horns of unicorns: with  
them he shall push the people together to the  
ends of the earth (Deuteronomy 33:17).

Will the unicorn be willing to serve thee, or  
abide by thy crib? Canst thou bind the unicorn  
with his band in the furrow? Or will he harrow  
the valleys after thee? Wilt thou trust him,  
because his strength is great? (Job 39:9-11).

But my horn shalt thou exalt like the horn of  
an unicorn: **I shall be** anointed with fresh oil  
(Psalm 92 :10, Vulgate Psalm 91).

We all think we are unicorns..

T T I'd better wear my unicorn shirt you bought me today before everyone's wearing one. Now it's trending because everyone is a unicorn. Whereas, before, unicorns were something so rare you didn't encounter one.

Now

Everyone is a unicorn.

Because "unicorns" are unique.

You don't understand me I'm a unicorn and I don't care.

Like, joining a biker gang and being unique (even tho everyone else is in the biker gang) or going goth (even tho it's so common it's actually got a name) or being a cheerleader. Now, it's not just me that's a unicorn. It's everyone and they're wearing matching t shirts. I'm a unicorn! Watch me roar.

In about a month T T we need to create a t shirt that says be a Panther in a world full of unicorns.

Disclaimer: ignore this post if you are not T

T This post was sarcastic and should really have been a text. No unicorns have been harmed in the creation of this post. I am a unicorn. I love unicorns. I am wearing the unicorn t shirt today.

In the Book of Daniel, written about 165 B.c., a onehorned animal is called a goat, rather than a unicorn:

Behold, an he-goat carne from the west on the face of the whole earth, and touched not the ground: and the goat had a notable horn between his eyes. And he carne to the ram that had two horns ... and ran unto him in the fury of his power .... And ... smote the ram, and brake his two horns; and there was no power in the ram to stand before him .... And the rough goat is the king of Grecia: and the great horn that is betweeen his eyes is the first king (8:5-7, 21).

There is **power, majesty, and exaltation** in the unicorn of the Old Testament. It would seem that the unicorn of the tapestries is his worthy descendant.

Throughout the Middle Ages, passages from the Bible such as those just quoted were cited by theologians, encyclopedists, and tellers of popular animal tales as references concerning the unicorn. At least as early as the third century the unicorn was **adopted by** the Christian world, not merely as a remarkable animal that had been described by pagan writers and endorsed by the Bible, hut as a symbol of Christ. The pagan philosopher and legal expert Tertullian, who became a Christian about 193, quotes the passage from Deuteronomy,

“his horns are like the horns of unicorns,”

and explains that

“Christ is meant by this [animal], and the horn denotes Christ’s cross.” <sup>9</sup>

I think is more about creating art to be admired rather than clothes an average person would wear. The skeleton dress was pretty. The unicorn was impressive. The coats were beautiful! The huge jackets that cover your head were just weird but now that I give it a thought they might be useful for people who camp in cold places. As in, jacket + sleeping bag.

Saint Ambrose (about 340-397), bishop of Milan and one of the great theologians of the Western Church, writes in his commentary on the Psalms:

“Who then is this unicorn hut the only begotten Son of God?” <sup>10</sup>

Saint Basil (about 330-379), one of the great fathers of the Eastern Church, develops the symbolism at length. He says in part that Christ

“will be called the Son of unicorns, for as we have learned in Job, the unicorn is **irresistible** in might and unsubjected to man.”

He notes that the horn is frequently used in the Scriptures to denote glory and power and salvation, and adds:

“Christ is the power of God, therefore he is called the unicorn on the ground that He has one horn, that is, one common power with the Father.” <sup>11</sup>

By interpreting the unicorn as a Christian symbol, the early theologians made possible the acceptance of him by learned Christians. However, an anonymous writer who collected and recorded a group of animal legends sometime between the second and fourth centuries brought the unicorn an even greater and more universal popularity.

**The book**, originally written in Greek, probably in Alexandria, was known as the Physiologus, since in each chapter “Physiologus” (“the scientist”) is cited as the source. The text consists of descriptions, many of them fanciful, of real animals, birds, and fish, and even more fanciful descriptions of unreal creatures such as the autolops, caladrius, unicorn, and upupa. Each account concludes with the lesson to be learned by Christians from the supposed habits and characteristics of the animal described.

The Physiologus was so admired and enjoyed in the Middle Ages that it exists today in countless versions, not only in Greek but also in Syriac, Arabic, Armenian, and Ethiopic, in Latin, old high German, old French, Provençal, Icelandic, Italian, and Anglo-Saxon. As time went on, many creatures were added to the Physiologus of the early centuries, and by the twelfth century, the enlarged versions were generally known in western Europe as bestiaries. <sup>12</sup>

Hahaha just when you thought the world couldn't be a better place.... this pops up!!!

According to a ninth-century Latin Physiologus in Berne:

There is an animal that is called a monoceros in Greek and in Latin truly a unicorn. Physiologus says that the unicorn has this nature. He is a small animal, like a kid, but exceedingly fierce, with one horn in the middle of his head; and no hunter is able to capture him. Yet he may be taken in this manner: men lead a virgin maiden to the place where he most resorts and they leave her in the forest alone. As soon as the unicorn sees her he springs into her lap and embraces her. Thus he is taken captive and exhibited in the palace of the king.

In this way Our Lord Jesus Christ, the **spiritual unicorn** descended into the womb of the Virgin and through her took on human flesh.

He was captured by the Jews and condemned to die on the cross. Concerning him David ... says

‘But my horn shalt thou exalt like the horn of an unicorn.’

And Zacharias says

‘He hath raised up an horn of salvation for us in the house of his servant David’ [Luke 1 :69]. ...

Moreover the one horn that he has on his head signifies the words of the **Saviour**

‘I and my Father are one’ [John 10:30] ...

They say that he is exceedingly fierce, and this means that neither Principalities nor Powers nor **Thrones**... not the most subtle devil nor Hell could hold [him] against his will.

It's wonderful to live and be ourselves in a world that those drag queens in Stonewall fought and sadly, took a beating for. Be yourself but don't abuse that right. Cringe.

Moreover they say that he is a small animal and this is because of the humility [of Christ] in his incarnation; concerning this he said,

‘Learn of me, for I am meek and lowly in heart’ [Matthew 11 :29]. ... Only by the wish of the Father did he descend into the womb of the Virgin Mary for our salvation. <sup>13</sup>

The unicorn of the Physiologus is startlingly different from the magnificent animal of Ctesias, Pliny, and Aelian. He is no longer likened to a horse or an ass larger than a horse. He is not even the powerful he-goat of Daniel, but only a small **goat** a kid. Small as he is, however, he is “exceedingly fierce” and cannot be taken by the force of hunters. Thus he exemplifies both the humility of Christ, the Son of God, who **became a human being** for the sake of mankind, and also the invincibility of Christ, who could not be held against his will by the powers of heaven or hell.

One is glad to see, for esthetic if not theological reasons, that the unicorn of the tapestries retains the horselike appearance of the unicorn of Pliny. However, he has as well the beard and doven hooves of the goat, following the description in the Physiologus. The visual result of this combination is satisfying, even superb.

As in the Physiologus, too, the unicorn of the tapestries fights the hunters fiercely and is finally captured only by means of the taming influence of a maiden. In the larger fragment of the tapestry that once depicted the capture scene, a bit of the maiden's arm is shown, and her fingers caressing the unicorn's mane. However, **she is not "alone"** as in the Physiologus but is accompanied by at least one handmaiden. Then the unicorn of the tapestries is killed in a violent, tragic scene, not merely taken captive as in the Physiologus; however, he is brought, a precious prize, to the lord of the castle, or, in the words of the Physiologus, to "the palace of the king."

Now you know why unicorns are so hard to find.....  
there're hanging out in strip clubs. Plastic animal

Details differ in the many versions of the Physiologus and the bestiaries derived from it. In the bestiary by Philippe de Thaun, a twelfth-century Anglo-Norman poet who dedicated his work to Adelaide, the queen of Henry I of England, the capture of the unicorn is thus described:

When a man intends to hunt it, and to take it and ensnare it, he goes to the forest where is its repair, there he places a virgin, with her breast uncovered, and by its scent the unicorn perceives it; then it comes to the virgin and kisses her breast, falls asleep on her lap and so comes to its death. The man arrives immediately and kills it in its sleep ... or takes it alive. <sup>14</sup>

A certain Pierre, writing his French (Picard) bestiary for Philippe de Dreux, bishop of Beauvais (1175-1217), says for the first time, so far as is known,

that the unicorn is very beautiful (“moult bèle”), and his horn is four feet long, straight, and sharp.

Following Pliny and not the Physiologus, Pierre states that

the unicorn has the **body** of a horse with the head of a stag,

I think they would be more concerned with the fact the new generation is putting tide pods in their mouth

but he adds that

he is “not a very large beast.” The virgin maiden is also beautiful, and moreover she is **well dressed** (“bien parée”). <sup>15</sup>

All versions of the Physiologus and the bestiaries agree on the essential significance of the unicorn story for the people of the Christian faith. The unicorn is Christ. As the unicorn surrendered his fierceness and became tame by means of a virgin maiden, so Christ, by the will of the Father, apparently surrendered his divine nature and became a human being by means of the Virgin Mary, for the salvation of mankind.

It seems not to have occurred to any of the writers that the role of the maiden who tricked the unicorn was far from admirable and thus not the best possible symbol for the Virgin Mary, who cannot be imagined as tricking her Son.

Not feelin the Snapchat update but this unicorn filter was made just for me 💜 🦄

Yet not only the popular writers of animal tales but also several preachers and theologians adopted the virgin-capture theme as an allegory of the Incarnation. Honorius of Autun (active 1106-35) makes use of the story in his sermon “On the Nativity of Our Lord.”

“The unicorn,”

he says,

“is a very fierce beast with only one horn. To capture it a virgin maid is **placed in the field**. The unicorn approaches her, and resting in her lap, is so taken. By the beast Christ is figured, by the horn his insuperable strength. Resting in the womb of a virgin, he was taken by the hunters, that is, he was found in human form by those who loved him.” <sup>16</sup>

Pseudo-Hugo of Saint Victor (1096-1141) quotes almost word for word the description of the unicorn and the symbols as given in the ninth-century Physiologus. He adds that

the virgin maid is beautiful and that she uncovers her breast. <sup>17</sup>

Almost all the authorities specify or imply that the maiden should be left alone; however, the abbess Hildegard von Bingen (1098-1179) suggests that to capture a unicorn several maidens are better than one. She says:

“On the day of the hunt, men, women, and girls pursue the unicorn. Then the girls separate from the others and play among the flowers.” The girls should be “well born, not rustics,” and neither too young nor too old. “The unicorn ... on seeing the girls ... stops at once ... crouches on his hind legs and inspects them for a long time .... He falls in love with them, for he perceives that they are **enticing and delightful**.” <sup>18</sup> And thus he is undone.

Hildegard's version of the story is unusual, if not unique, but it provides a precedent for the presence of the second female figure in the virgin-capture tapestry at The Cloisters. The lady there may not fulfill all of Hildegard's requirements, but she is in truth rather “enticing and delightful.”

Hildegard does not give symbolic meaning to her story, nor do several of the great medieval encyclopedists who describe the mode of the capture, notably Isidore of Seville (about 560-636),<sup>19</sup> Albertus Magnus (1200-80),<sup>20</sup> and Bartholomaeus Anglicus (active 1231- 50).<sup>21</sup> Vincent of Beauvais (about 1190-1264) does not even mention the maiden.<sup>22</sup>

The story and the symbolism of the virgin capture continued **in vogue**, however, and in the thirteenth century the allegory of the Incarnation was developed further to denote specifically the Annunciation. The hunter became the messenger of God, the angel Gabriel.

The Minnesänger Konrad von Würzburg (died 1287) calls him the “heavenly hunter” (Himeljeger).<sup>23</sup> An old, undated German folk song describes how the “hunter who hunts the beautiful unicorn” came “from the throne on high.”<sup>24</sup>

One of the hunters in the fourth tapestry (130), where the unicorn is fighting fiercely, undoubtedly represents the angel Gabriel, for the scabbard of his sword bears the inscription “Ave Regina C [oelorum]” (“Hail, Queen of the Heavens”). The angel of the Annuncia-tion, to be sure, greeted the Virgin Mary with the words “Ave Maria, gratia plena” (“Hail Mary, full of grace”); however, the “Ave Regina Coelorum” was a popular hymn to the

Virgin in the Middle Ages and it could well have been considered an appropriate substitute for the “Ave Maria,” and a more regal salutation.

If one of the huntsmen in the tapestries represents the angel Gabriel, the question arises: Who are the others? Since some of them, although elegantly clothed, have the faces of villains or at least of totally insensitive men, they may represent the enemies of Christ who pursued him, captured him, and condemned him to die on the cross. The text of the ninth-century Physiologus quoted earlier suggests this interpretation. The thirteenth-century bestiary of Guillaume le Clerc makes the symbolism more explicit:

This wonderful beast,  
Which has one horn on its head,  
Signifies our lord  
Jesus Christ, our saviour.  
He is the spiritual unicorn,  
Who took up in the virgin his abode  
Who is so especially worthy  
In her he assumed **his human form**  
In which he appeared to the world.  
His people of the Jews  
Believed him not, but spied on him  
And then took him and bound him  
Before Pilate they led him  
And there condemned him to death. <sup>25</sup>

The fourteenth-century Buch der Natur by Konrad von Megenberg also states that Christ, like the unicorn,

“was captured by the wicked hunters ... and by them shamefully put to death.” <sup>26</sup>

Konrad, furthermore, gives additional meaning to the statement in the ninth-century Physiologus that the unicorn was “exhibited in the palace of the **king**”; he says of the unicorn, symbolizing Christ,

“Thereupon he rose again and went heavenward to the palace of the heavenly King, where he accorded to the community of all the saints and all the angels a sight sweet to see.”

**M** **M** **L** 6 y

I'm a princess!! Are you a princess, too?

Thus the story of the unicorn, in the texts and in the tapestries, may be interpreted as an allegory of the whole divine plan for the redemption of sinful man:

the Incarnation of Christ, the pursuit of him by his enemies, his condemnation and death on the cross, and his resurrection “to the palace of the heavenly king”

The last tapestry, in which the unicorn rests in a garden of flowers, may symbolize the resurrected Christ as he shows himself to the saints and angels of heaven.

## Unicorn horn

The medieval writers were slow in recognizing the value of the unicorn's horn in repelling poison.

The abbess Hildegard recommends the use of various parts of the unicorn's body for **medicinal purposes** but does not mention the horn.

According to her,

an unguent made of the powdered liver mixed with egg yolks will cure leprosy “unless the leper in question happens to be one whom death is determined to have or else one whom God does not wish to be cured.”

And further:

“If a belt is made of the unicorn's hide and worn around the waist over the skin, it will preserve one from the dangers of pestilence and of fevers.” <sup>27</sup>

The world we live in where people are more interested in a drink

Leprosy and the plague are serious **diseases**, and if the unicorn's liver and hide could cure or prevent them, this was miraculous indeed. But the efficacy of the unicorn's horn against poison was apparently unknown to Hildegard.

In a late Greek Physiologus, on the other hand, the value of the unicorn's horn in absorbing poison is specifically described. Following the usual paragraph about the characteristics of the unicorn, its capture by the maiden "who is clothed," and the unicorn's meaning as a symbol of Christ, there is mention of "a great lake" where "the animals gather ... to drink":

But before they are assembled the serpent comes and casts its poison into the water. Now the animals mark well the poison and do not dare to drink and they wait for the unicorn. It comes and immediately goes into the lake and making with his horn the sign of the cross renders the power of the poison harmless. And all the other animals drink as well. <sup>28</sup>

The text does not enlighten us as to the significance of this incident, but the symbolism is implicit. The serpent is the devil, who brought the poison of sin into the world, and the unicorn, of course, is Christ, who redeemed the world from sin by the power of his horn, "the horn of **salvation**."

A commercial for a commercial! Unbelievable

Another description of the purification of the water is given by a priest of Utrecht, Johannes of Hese, who claims that he visited the Holy Land in 1389. He writes:

Near the field of Helyon, there is a river called Marah, the water of which is very bitter, into which Moses struck his staff and made the water sweet so that the Children of Israel might drink. And even in our times, it is said, venomous animals poison that **water** after the setting of the sun, so that the good animals cannot drink of it; but in the morning, after the sunrise, comes the unicorn and clips his horn into the stream, driving the poison from it so that the good animals can drink there during the day. This I have seen myself. <sup>29</sup>

I love the video the music is hilarious! They love it too. They said they saw it and waved but had no idea how long it was around for 😂

From the fourteenth century on, the nobility, like the “eminent Indians” of Aelian, owned beakers of unicorn’s horn or **beakers with a bit of the horn** incorporated in them, or simply a fragment of the horn called an “espreuve,” a test for poison.

I would go to take a drink and poke my eye out with the horn or get it stuck up my nose! I'm just especially coordinated like that!

The French royal accounts for 1388 mention an espreuve of unicorn's horn mounted on a chain of gilded silver. <sup>30</sup> An **inventory** of Duke Philip the Bold of Burgundy for the year 1408 lists

“a piece of unicorn for testing, its tip of silver.” <sup>31</sup>

In 1472 King Henry of England gave Louis, Lord of Gruuthouse, Bruges,

“a cup of gold gamished with pearl. In the midst of the cup is a great piece of unicorn's horn ... [ of] seven inches compass. And on the cover is a great sapphire.” <sup>32</sup>

The dukes of Burgundy **possessed** at least two goblets entirely of unicorn's horn, one of them enameled with pansies. <sup>33</sup> At the marriage of Princess Margaret of York to Duke Charles the Bold of Burgundy in 1468 the cupboard in the great hall had

“on every corner great unicorns' horns, very large and very beautiful.” <sup>34</sup>

You need this [Unicorn tears](https://www.firebox.com/Unicorn-Tears-Gin-Liqueur/p6970) gin in your life

<https://www.firebox.com/Unicorn-Tears-Gin-Liqueur/p6970>

**R M N** 1 w

They were of course tears of happiness, Justine - unicorns cry \*every\* morning at sunrise, at the beauty of the world and all that is living. 🌊🌈☺️🍷

At the time that these and many other unicorns' horns for testing were noted in the account books and inventories, the actual horn was that of the narwhal (*Monodon monoceros*), the small arctic whale rarely found south of Greenland.

This “horn” is a single tusk, long, spiraled, and ivory white.

In the Middle Ages it **sold** for several times its weight in gold and was considered among the greatest treasures for a cathedral, monastery, or palace.

**H** **B** 1 w

Mmm Unicorns never shed tears they are happy animals so Unicorn tears do not exist. So ask for Unicorn smiles they will bring you good luck...believe me xx

**H** **L V** **D** 1 w

have you ever seen Legend? They do when Lord Darkness cuts off the horn of the stallion!

**H** **B** 1 w

Do not want to believe that anyone cuts off the horn too awful to contemplate. I just want think Unicorns are invincible I am sure I am right!!

**G** **L** 1 w

Why the hell would I want unicorn tears? Those can only be retrieved by invoking incantations and cyber bullying tactics in order to lower the unicorn's self esteem and lower his life force, making him vulnerable to tears harvesting AND sapping the magical essence that they use to keep the Dark Ones at bay. Everybody knows that. It's even in the Lothspar Grimoire, Third Edition, I think.

**A** **M** 1 w

Unicorns don't cry, but they do piss... 🤔

Only £23 coming to a bar near you...!!

In the Victoria and Albert Museum is a narwhal tusk that was elaborately carved, probably as early as the twelfth century, perhaps for use as part of a scepter or ceremonial staff. A sword with pommel and scabbard of narwhal ivory that belonged to Charles the Bold of Burgundy is one of the treasures of the Schatzkammer in Vienna.

It is mounted in gold and silver gilt and is enriched with a ruby, pearls, and an enameled gold medallion. Medieval drinking cups of **narwhal** tusk apparently have not survived, but a fine seventeenth-century covered beaker on loan at The Cloisters may resemble the beakers listed in medieval inventories. It is the narwhal horn, not the parti-colored horn of Ctesias or the black horn of Pliny, that the unicorn of the tapestries bears in the middle of his forehead.

Coming up for air, before diving back down to the dark quiet of Arctic waters. Narwhals perplex mankind, and we're only now scratching the surface of understanding them.

These fascinating beings' home's have been invaded by oil companies in recent years. Sending out seismic blasts far louder than jet engines, Narwhals and the other cetaceans that live in these waters can be effectively blinded.

In the very near future we won't wish we'd burnt more oil, but we will wish we'd done more to protect the unicorns of the sea!

## Uniocorn Love

The unicorn with its magic horn and its interest in virgin maidens was taken over, in the thirteenth century, by poets and writers of romantic **tales** as a symbol of the lover beguiled by his beloved. This is not surprising, for the erotic aspects of the unicorn story are present in several of the texts that have been quoted here. The trouvère Thibaut, Count of Champagne (1201-53), composed this song to his lady:

The unicorn and I are one:  
He also pauses in amaze  
Before some maiden's magic gaze,  
And while he wonders, is undone.  
On some dear breast he slumbers deep  
And Treason slays him in that sleep.  
Just so have ended my life's days;  
So Love and my Lady lay me low.  
My heart will not survive this blow. <sup>35</sup>

It's a land of magic!!!! Sugar rush madness  
Embrace your inner unicorn

One of the so-called “wandering scholars” of the thirteenth century eulogizes his Phyllis thus:

**Sweet above all sweets** that are  
‘Tis to play with Phyllis,  
For her thoughts are white as snow,  
In her heart no ill is;  
And the kisses that she gives  
Sweeter are than lilies.  
Love leads after him the gods  
Bound in pliant traces;  
Harsh and stubborn hearts he bends,  
Breaks with blows of maces;  
Nay, the unicorn is tamed  
By a girl’s embraces. <sup>36</sup>

This place really made me vomit rainbow and shit rainbow. Initially was very excited to visit this place but end up one of my worst nightmare of the trip. Not a very "clean" place. Ordered the milk shake, crepe cake and cheese fries. Overpriced and the crepe cake taste way too weird. Did not even managed to finish 3/4 of the drinks and food... Just about an hour later, I puked all the rainbow stuffs out with very bad tummyache and it was really terrible! Cost me a bomb to visit Phaya Thai Hospital there after. Strongly Strongly strongly not recommended. Go at your own risk.

Best cafe in Bangkok! Believe in unicorns believe in magic!

In the thirteenth century, also, Richard de Fournival wrote a Bestiaire d'Amour addressed to his "beautiful very sweet beloved." He says in his chapter on the unicorn:

I have been drawn to you by your sweet odor ... as the unicorn falls asleep under the influence of a maiden's fragrance. For this is the nature of the unicorn, that no other beast is so hard to capture, and he has one horn in the middle of his forehead which no armor can withstand, so that no one dares to go forth against him except a virgin girl. And as soon as he is made aware of her presence by the scent of her, he kneels humbly before her and humiliates himself as though to signify that he would serve her. Therefore wise huntsmen who know his nature set a virgin in his way; he falls asleep in her lap; and while he sleeps the hunters who would not dare to approach him while awake, come up and kill him. Even so has Love dealt cruelly with me; in my pride, I thought never to see the woman whom I should care to possess .... But Love, the skillful huntsman, has set in my path a maiden in the odor of whose sweetness I have fallen asleep, and I die the death to which I was doomed. <sup>37</sup>

The religious symbolism of the unicorn in the tapestries has been pointed out; the secular symbolism is somewhat less easy to explain.

Certainly there is an atmosphere of wordliness throughout the series, and at least one of the tapestries may be interpreted as an allegory of true love. This is the last, where the unicorn is collared, chained to a tree, and surrounded by a fence. The thirteenth-century poet Burkart von Hohenfels describes the lover, that is, the unicorn, in a similar situation.

He, like the unicorn, “roamed about in all lands **searching for pleasure**” and he was drawn to a lady “with shining eyes.” She “chained him with her womanly charm” and he “fell into the trap” from which he could “never escape.” <sup>38</sup>

The chain was frequently used by poets of the Middle Ages as a symbol of the lover’s devotion to his lady and his complete subjection to her will. In the fourteenth-century *Romans de la Dame a la Lycorne et du Biau Chevalier au Lyon*, the knight, on parting from his mistress, sends her a poem over two hundred lines long on *La Cheene d’ Amours*,

the chain of love that bound their two hearts together, and was “stronger than steel,” yet could be stretched without breaking. <sup>39</sup>

The unicorn in the tapestry, as lover or mate, though enchained and entrapped, is entirely content with his lot.

It may seem strange to modern observers that the same tapestry is intended to convey both religious and secular significance, to symbolize the risen Christ and also the lover held captive. But people of the late Middle Ages delighted in this type of juxtaposition; for them the God of **Heaven** and the God of **Love** were not incompatible.

Another instance of the combining of the secular and the religious is perhaps to be found in the sixth tapestry, where the unicorn is slain and brought to the lord and lady of the castle. The dead unicorn is garlanded with a wreath of oak leaves that grow unnaturally on thorny branches.

The thorns may refer to Christ's crown of thorns, the oak leaves to the constancy of the lover. In a medieval German folk song **praising**

the oak, the leaves of the tree “betoken steadfastness,” and “whoever wears them at the command of his true love is expected to remain faithful.” <sup>40</sup>

The unicorn himself, according to Wolfram von Eschenbach in his *Parzifal*, was a symbol of loyalty. The lady speaks:

“My greatly desired one was like the unicorn in faithfulness; he is the animal whorn the maidens should lament for he was slain through purity.” <sup>41</sup>

There is a tradition that the unicorn tapestries were designed and woven to celebrate a marriage. If this be so, the secular symbolism would be entirely appropriate and, in a way, more eloquent than words.
